

BENEFITS OF MUNICIPAL LEASING

Payment Control

If a customer has a budget & needs a payment to “fit” their budget, we can use various programs to meet their goals.

Reduce total cost of ownership

Industry analysts state that effective leasing strategies can reduce total cost of ownership by 10-15%. Also, eliminate costs associated with disposing & replacing essential use equipment.

Non-Appropriation Language

A municipal lease is not recognized as debt, allowing the customer to use their “operations” budget or any combination of funds to make the payments

Refresh your technology/equipment

Benefit from technology/equipment refresh options including add-ons & upgrades.

Conserve capital

Leasing means no down payment & no required compensating balances. Furthermore, incidental costs, such as sales tax & installation charges, can be bundled into the lease rather than paid up-front.

Preserve existing credit lines

Leasing gives you a new source of credit for present & future needs.

Finance 100% of your solution

Leasing lets you finance the entire cost of your technology acquisition, including equipment, software, & soft costs.

Take advantage of tax regulations

You may be able to either write off monthly payments as an operating expense or capitalize the outlay.*

HOW WE STAND OUT:

- Customized Lease Programs
- Competitive Pricing
- Personalized Attention
- Include Service & Warranty for the term of the lease
- Master Lease Programs
- Escrow & Advance Funding
- Contractor Financing (private)

“When your purchasing plans involve financing/municipal leasing, integrity is of utmost importance in your supplier evaluation. I have known Carl Langner for many years. I can say without hesitation that you will be hard-pressed to find anyone in the financial industry with more integrity than Carl. You can place your trust in them.”

- Greg Haglin, President, Government Solutions Team, LLC
